

Oregon achieves . . . together!

OPERATIONAL BLUEPRINT FOR SCHOOL REENTRY 2020-21

Updated 3/10/2021

Under ODE's *Ready Schools, Safe Learners* guidance, each school¹ has been directed to submit a plan to the district² in order to provide on-site and/or hybrid instruction. Districts must submit each school's plan to the local school board and make the plans available to the public. This form is to be used to document a district's, school's or program's plan to ensure students can return for the 2020-21 school year, in some form, in accordance with Executive Order 20-25(10). Schools must use the *Ready Schools, Safe Learners* guidance document as they complete their Operational Blueprint for Reentry. ODE recommends plan development be inclusive of, but not limited to, school-based administrators, teachers and school staff, health and nursing staff, association leadership, nutrition services, transportation services, tribal consultation,³ parents and others for purposes of providing expertise, developing broad understanding of the health protocols and carrying out plan implementation. *It is required that a revised Operational Blueprint be completed and updated when there is a change of Instructional Model*.

1. Please fill out information:

SCHOOL/DISTRIC	CT/PROGRAM INFORMATION
Name of School, District or Program	Crosshill Christian - South Campus
Key Contact Person for this Plan	Mindy Kelly, Secondary Coordinator
Phone Number of this Person	503-391-9082
Email Address of this Person	mkelly@crosshillchristian.com
Sectors and position titles of those who informed the plan	Mindy Kelly - Secondary Coordinator, Adam Kronberger - Head of School, Mark Cotter - Office Administrator, Sarah Stucker - Nurse/Parent, Ryan Porter - Nurse/Parent, Matt LeDuc - Former Maintenance Supervisor, COTH Executive Board, CCS School Advisory Board
Local public health office(s) or officers(s)	Sophia Damiani, MPH Epidemiologist, Communicable Disease Program Marion County Health and Human Services M-F, 8am to 5pm 971-375-7764 Kara Oliver, RN, BSN

¹ For the purposes of this guidance: "school" refers to all public schools, including public charter schools, public virtual charter schools, alternative education programs, private schools and the Oregon School for the Deaf. For ease of readability, "school" will be used inclusively to reference all of these settings.

² For the purposes of this guidance: "district" refers to a school district, education service district, public charter school sponsoring district, virtual public charter school sponsoring district, state sponsored public charter school, alternative education programs, private schools, and the Oregon School for the Deaf.

³ Tribal Consultation is a separate process from stakeholder engagement; consultation recognizes and affirms tribal rights of self-government and tribal sovereignty, and mandates state government to work with American Indian nations on a government-to-government basis.

	oxtimes On-Site Learning $oxtimes$ Hybrid Le	earning Comprehensive Distance Learning
4.	If you selected Comprehensive Distance Lea Blueprint for Reentry (i.e., page 2 in the initi	rning, you only have to fill out the green portion of the Operational al template).

- 5. If you selected On-Site Learning or Hybrid Learning, you have to fill out the blue portion of the Operational Blueprint for Reentry (i.e., pages 3-22 in the initial template) and <u>submit online</u>, including updating when you are changing Instructional Model (https://app.smartsheet.com/b/form/a4dedb5185d94966b1dffc75e4874c8a).
- * Note: Private schools are required to comply with only sections 1-3 of the *Ready Schools, Safe Learners* guidance.

ESSENTIAL REQUIREMENTS FOR HYBRID / ON-SITE OPERATIONAL BLUEPRINT

This section must be completed by any school that is providing instruction through On-Site or Hybrid Instructional Models.

Schools providing Comprehensive Distance Learning Instructional Models do not need to complete this section unless the school is implementing the Limited In-Person Instruction provision under the Comprehensive Distance Learning guidance.

1. Public Health Protocols

County) of any confirmed COVID-19 cases among students or staff.

1a. COMMUNICABLE DISEASE MANAGEMENT PLAN FOR COVID-19 OHA/ODE Requirements Hybrid/Onsite Plan ☐ Conduct a risk assessment as required by OSHA administrative rule OAR 437-001-0744(3)(g). OSHA has developed a <u>risk assessment template</u>. Please see Crosshill Christian's ODE Blueprint for our updated plan ☐ Implement measures to limit the spread of COVID-19 within the school setting, including when the school setting is outside a building. ☐ Update written Communicable Disease Management Plan to specifically address the prevention of the spread of COVID-19. Examples are located in the Oregon School Nurses Association (OSNA) COVID-19 Toolkit. Review OSHA requirements for infection control plan to ensure that all required elements are covered by your communicable disease management plan, including making the plan available to employees at their workplace. Requirements are listed in OSHA administrative rule **OAR** 437-001-0744(3)(h). OSHA has developed a sample infection control plan. ☐ Designate a single point-person at each school to establish, implement, support and enforce all RSSL health and safety protocols, including face coverings and physical distancing requirements, consistent with the Ready Schools, Safe Learners guidance and other guidance from OHA. This role should be known to all staff in the building with consistent ways for licensed and classified staff to access and voice concerns or needs. ☐ Create a simple process that allows for named and anonymous sharing of concerns that can be reviewed on a daily and weekly basis by the designated RSSL building point-person. Example: Anonymous survey form or suggestion box where at least weekly submissions and resolutions are shared in some format. ☐ Include names of the LPHA staff, school nurses, and other medical experts who provided support and resources to the district/school policies and plans. Review relevant local, state, and national evidence to inform plan. ☐ Process and procedures established to train all staff in sections 1 - 3 of the Ready Schools, Safe Learners guidance. Consider conducting the training virtually, or, if in-person, ensure physical distancing is maintained to the maximum extent possible. ☐ Protocol to notify the local public health authority (LPHA Directory by

	Plans for systematic disinfection of classrooms, common areas,	
	offices, table surfaces, bathrooms and activity areas. Process to report to the LPHA any cluster of any illness among staff or	
	students.	
	Protocol to cooperate with the LPHA recommendations.	
	Provide all logs and information to the LPHA in a timely manner.	
	Protocol for screening students and staff for symptoms (see section 1f of the <i>Ready Schools, Safe Learners</i> guidance).	
	Protocol to isolate any ill or exposed persons from physical contact with others.	
	Protocol for communicating potential COVID-19 cases to the school community and other stakeholders (see section 1e of the <i>Ready Schools, Safe Learners</i> guidance).	
	Create a system for maintaining daily logs for each student/cohort for the purposes of contact tracing. This system needs to be made in consultation with a school/district nurse or an LPHA official. Sample logs are available as a part of the Oregon School Nurses Association COVID-19 Toolkit. • If a student(s) is part of a stable cohort (a group of students that are consistently in contact with each other or in multiple cohort groups) that conform to the requirements of cohorting (see section 1d of the Ready Schools, Safe Learners guidance), the daily log may be maintained for the cohort. • If a student(s) is not part of a stable cohort, then an individual student log must be maintained.	
	Required components of individual daily student/cohort logs include: Child's name Drop off/pick up time Parent/guardian name and emergency contact information All staff (including itinerant staff, district staff, substitutes, and guest teachers) names and phone numbers who interact with a stable cohort or individual student	
	Protocol to record/keep daily logs to be used for contact tracing for a minimum of four weeks to assist the LPHA as needed. • See supplemental guidance on LPHA/school partnering on contact tracing. • Refer to OHA Policy on Sharing COVID-19 Information	
	Process to ensure that all itinerant and all district staff (maintenance, administrative, delivery, nutrition, and any other staff) who move between buildings keep a log or calendar with a running four-week history of their time in each school building and who they were in contact with at each site.	
	Process to ensure that the school reports to and consults with the LPHA regarding cleaning and possible classroom or program closure if anyone who has entered school is diagnosed with COVID-19.	
	Designate a staff member and process to ensure that the school provides updated information regarding current instructional models and student counts and reports these data in ODE's COVID-19 Weekly School Status system.	
	Protocol to respond to potential outbreaks (see section 3 of the <i>Ready Schools, Safe Learners</i> guidance).	
	1b. HIGH-RISK	POPULATIONS
OН	A/ODE Requirements	Hybrid/Onsite Plan
	Serve students in high-risk population(s) whether learning is	
	happening through On-Site (including outside), Hybrid (partially On-Site and partially Comprehensive Distance Learning models), or	

Medically Fragile, Complex and Nursing-Dependent Student Requirements

Comprehensive Distance Learning models.

	All dist	ricts m	ust account for students who have health conditions	
	that re	quire a	dditional nursing services. Oregon law (ORS 336.201)	
			levels of severity related to required nursing services:	
	1.		ally Complex: Are students who may have an unstable	
			condition and who may require daily professional	
			g services.	
			ally Fragile: Are students who may have a	
			reatening health condition and who may require diate professional nursing services.	
	3.		g-Dependent: Are students who have an unstable or	
	Э.		reatening health condition and who require daily, direct,	
			entinuous professional nursing services.

			IOI JOITOUI CACIUJIOII.	

OHA/ODE Requirements	Hybrid/Onsite Plan
□ Establish a minimum of 35 square feet per person when determining room capacity. Calculate only with usable classroom space, understanding that desks and room set-up will require use of all space in the calculation. This also applies for professional development and staff gatherings. If implementing Learning Outside guidance, establish an outside learning space for learning that maintains minimum 35 square feet per person. • Within this design, educators should have their own minimum of 35 square feet and the design of the learning environment must allow for some ability for the educator to move through the room efficiently and carefully without breaking 6 feet of physical distance to the maximum extent feasible.	
 Support physical distancing in all daily activities and instruction, maintaining six feet between individuals to the maximum extent possible. Minimize time standing in lines and take steps to ensure that six feet 	
of distance between students is maintained, including marking spacing on floor, one-way traffic flow in constrained spaces, etc. Schedule modifications to limit the number of students in the	
building or outside learning space (e.g., rotating groups by days or location, staggered schedules to avoid hallway crowding and gathering).	
□ Plan for students who will need additional support in learning how to maintain physical distancing requirements. Provide instruction; don't employ punitive discipline.	
☐ Staff must maintain physical distancing during all staff meetings and conferences, or consider remote web-based meetings.	
1d. COH	ORTING
	Hybrid/Onsite Plan
 □ Where feasible, establish stable cohorts: groups shall be no larger than can be accommodated by the space available to provide 35 square feet per person, including staff. • The smaller the cohort, the less risk of spreading disease. As cohort groups increase in size, the risk of spreading disease increases. 	
☐ Students cannot be part of any single cohort, or part of multiple cohorts that exceed a total of 100 people within the educational week⁴, unless the school is offering Learning Outside, then they must follow guidelines for cohorting in Learning Outside guidance. Schools must plan to limit cohort sizes to allow for efficient contact-tracing and minimal risk for exposure. Cohorts may change week-to-week, but must be stable within the educational week.	
□ Each school must have a system for daily logs to ensure contract tracing among the cohort (see section 1a of the <i>Ready Schools, Safe Learners</i> guidance).	
☐ Minimize interaction between students in different stable cohorts (e.g., access to restrooms, activities, common areas). Provide access to All Gender/Gender Neutral restrooms.	
☐ Cleaning and sanitizing surfaces (e.g., desks, dry erase boards, door handles, etc.) must be maintained between multiple student uses, even in the same cohort.	

⁴ The cohort limit is focused on the students experience and their limit of 100 people includes every person they come into contact with, including staff. There is not a limitation for staff in cohort size while care should be given to design and attention to the additional requirements.

	 □ Design cohorts such that all students (including those protected under ADA and IDEA) maintain access to general education, grade-level academic content standards⁵, and peers. □ Minimize the number of staff that interact with each cohort to the 	
	extent possible, staff who interact with multiple stable cohorts must wash/sanitize their hands between interactions with different stable cohorts.	
	☐ Elementary staff who interact with multiple cohorts (music, PE, A library, paraprofessionals who provide supervision at recesses, etc.) should have schedules altered to reduce the number of cohorts/students they interact within a week. Consider having these staff engage via technology, altering duties so that they are not in close contact with students in multiple cohorts, or adjust schedules to reduce contacts.	
	1e. PUBLIC HEALTH COMM	UNICATION AND TRAINING
	OHA/ODE Requirements	Hybrid/Onsite Plan
	☐ Communicate to staff at the start of On-Site instruction and at periodic intervals explaining infection control measures that are being implemented to prevent spread of disease.	
	☐ Offer initial training to all staff prior to being in-person in any instructional model. Training could be accomplished through all staff webinar, narrated slide decks, online video, using professional	
	learning communities, or mailing handouts with discussion. Training cannot be delivered solely through the sharing or forwarding information electronically or in paper copy form as this is an insufficient method for ensuring fidelity to public health protocols (see section 8b of the <i>Ready Schools, Safe Learners</i> guidance for specific training requirements). Note: Instructional time requirements allow for time to be devoted for professional learning that includes RSSL training.	
	□ Post "COVID -19 Hazard Poster" and "Masks Required" signs as required by OSHA administrative rule <u>OAR 437-001-0744(3)(d)</u> and (e).	
	 Develop protocols for communicating with students, families and staff who have come into close contact with a person who has COVID-19. The definition of exposure is being within 6 feet of a person who has COVID-19 for at least 15 cumulative minutes in a day. OSHA has developed a model notification policy. 	
	□ Develop protocols for communicating immediately with staff, families, and the school community when a new case(s) of COVID-19 is diagnosed in students or staff members, including a description of how the school or district is responding.	
	 Periodic interval training also keeps the vigilance to protocols ever present when fatigue and changing circumstances might result in reduced adherence to guidance. 	
	 Provide all information in languages and formats accessible to the school community. 	
,	·	D SODEENING
I	1f. ENTRY AN OHA/ODE Requirements	DISCREENING Hybrid/Onsite Plan
	☐ Direct students and staff to stay home if they have COVID-19	
	symptoms. COVID-19 symptoms are as follows:	
	 Primary symptoms of concern: cough, fever (temperature of 100.4°F or higher) or chills, shortness of breath, difficulty 	
	breathing, or new loss of taste or smell.	

⁵ Academic content standards refer to all of Oregon state academic standards and the Oregon CTE skill sets.

 Note that muscle pain, headache, sore throat, diarrhea, nausea, vomiting, new nasal congestion, and runny nose are also symptoms often associated with COVID-19. More information about COVID-19 symptoms is available from CDC. In addition to COVID-19 symptoms, students must be excluded from school for signs of other infectious diseases, per existing school policy and protocols. See pages 9-11 of OHA/ODE Communicable Disease Guidance for Schools. Emergency signs that require immediate medical attention: Trouble breathing Persistent pain or pressure in the chest New confusion or inability to awaken Bluish lips or face (lighter skin); greyish lips or face (darker skin) Other severe symptoms 	
 Diligently screen all students and staff for symptoms on entry to bus/school/outside learning space every day. This can be done visually as well as asking students and staff about any new symptoms or close contact with someone with COVID-19. For students, confirmation from a parent/caregiver or guardian can also be appropriate. Staff members can self-screen and attest to their own health, but regular reminders of the importance of daily screening must be provided to staff. Anyone displaying or reporting the primary symptoms of concern must be isolated (see section 1i of the <i>Ready Schools</i>, <i>Safe Learners</i> guidance) and sent home as soon as possible. See table "Planning for COVID-19 Scenarios in Schools." Additional guidance for nurses and health staff. 	
Follow LPHA advice on restricting from school any student or staff known to have been exposed (e.g., by a household member) to COVID-19. See "Planning for COVID-19 Scenarios in Schools" and the COVID-19 Exclusion Summary Guide.	
Staff or students with a chronic or baseline cough that has worsened or is not well-controlled with medication must be excluded from school. Do not exclude staff or students who have other symptoms that are chronic or baseline symptoms (e.g., asthma, allergies, etc.) from school. See the COVID-19 Exclusion Summary Guide .	
☐ Hand hygiene on entry to school every day: wash with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol.	
1¢ VISITORS	/VOLUNTEERS
OHA/ODE Requirements	Hybrid/Onsite Plan
Restrict non-essential visitors/volunteers. Examples of essential visitors include: DHS Child Protective Services Law Enforcement, etc.	

OHA/ODE Requirements	Hybrid/Onsite Plan
 □ Restrict non-essential visitors/volunteers. • Examples of essential visitors include: DHS Child Protective Services, Law Enforcement, etc. • Examples of non-essential visitors/volunteers include: Parent Teacher Association (PTA), classroom volunteers, etc. 	
☐ Diligently screen all visitors/volunteers for symptoms and ask questions about symptoms and any close contact with someone diagnosed with COVID-19 upon every entry. Restrict from school property any visitor known to have been exposed to COVID-19. See the COVID-19 Exclusion Summary Guide.	
☐ Visitors/volunteers must wash or sanitize their hands upon entry and exit.	
☐ Visitors/volunteers must maintain six-foot distancing, wear face coverings, and adhere to all other provisions of the <i>Ready Schools</i> , <i>Safe Learners</i> guidance.	

1h. FACE COVERINGS, FACE SHIELDS, AND CLEAR PLASTIC BARRIERS

☐ Employers are required to provide masks, face coverings, or face	
shields for all staff, contractors, other service providers, visitors and	
volunteers.	
☐ Face coverings or face shields for all staff, contractors, other service	
providers, visitors or volunteers following <u>CDC guidelines for Face</u>	
Coverings. Individuals may remove their face coverings while working	
alone in private offices or when separated by more than 6 feet in	
outside learning spaces. Face shields are an acceptable alternative	
only when a person has a medical condition that prevents them from	
wearing a mask or face covering, when people need to see mouth	
and tongue motions in order to communicate, or when an individual	
is speaking to an audience for a short period of time and clear	
communication is otherwise not possible.	
☐ Face coverings or face shields for all students in grades Kindergarten	
and up following CDC guidelines for Face Coverings. Face shields are	
an acceptable alternative when a student has a medical condition	
that prevents them from wearing a mask or face covering, or when	
people need to see the student's mouth and tongue motions in order	
to communicate.	
☐ Face coverings should be worn both indoors and outdoors, including	
during outdoor recess.	
☐ Group mask breaks" or "full classroom mask breaks" are not allowed.	
If a student removes a face covering, or demonstrates a need to	
remove the face covering for a short-period of time:	
Provide space away from peers while the face covering is	
removed. In the classroom setting, an example could be a	
designated chair where a student can sit and take a 15 minute	
"sensory break;"	
 Students must not be left alone or unsupervised; 	
 Designated area or chair must be appropriately 	
distanced from other students and of a material that is	
easily wiped down for disinfection after each use;	
 Provide additional instructional supports to effectively wear a 	
face covering;	
 Provide students adequate support to re-engage in safely 	
wearing a face covering;	
Students cannot be discriminated against or disciplined for an	
inability to safely wear a face covering during the school day.	
\square Face masks for school RNs or other medical personnel when	
providing direct contact care and monitoring of staff/students	
displaying symptoms. School nurses shall also wear appropriate	
Personal Protective Equipment (PPE) for their role.	
 Additional guidance for nurses and health staff. 	
Accommodations under ADA or IDEA and providing FAPE while	
attending to Face Covering Guidance	
\square If any student requires an accommodation to meet the requirement	
for face coverings, districts and schools must limit the student's	
proximity to students and staff to the extent possible to minimize the	
possibility of exposure. Appropriate accommodations could include:	
Offering different types of face coverings and face shields that	
may meet the needs of the student.	
 Spaces away from peers while the face covering is removed; 	
students must not be left alone or unsupervised.	
Short periods of the educational day that do not include	
wearing the face covering, while following the other health	
strategies to reduce the spread of disease.	
Additional instructional supports to effectively wear a face	
covering.	
For students with existing medical conditions and a physician's orders	
to not wear face coverings, or other health related concerns,	
schools/districts must not deny any in-person instruction.	

☐ Schools and districts must comply with the established IEP/504 plan	
prior to the closure of in-person instruction in March of 2020, or the	
current plan in effect for the student if appropriately developed after	
March of 2020.	
If a student eligible for, or receiving services under a 504/IEP,	
cannot wear a face covering due to the nature of the	
disability, the school or district must:	
1. Review the 504/IEP to ensure access to instruction in a	
manner comparable to what was originally established	
in the student's plan including on-site instruction with	
accommodations or adjustments. 2. Not make placement determinations solely on the	
inability to wear a face covering.	
3. Include updates to accommodations and modifications	
to support students in plans.	
For students protected under ADA/IDEA, who abstain from	
wearing a face covering, or students whose families determine	
the student will not wear a face covering, the school or district	
must:	
1. Review the 504/IEP to ensure access to instruction in a	
manner comparable to what was originally established	
in the student's plan.	
2. The team must determine that the disability is not	
prohibiting the student from meeting the	
requirement.	
 If the team determines that the disability is prohibiting the student from meeting the 	
requirement, follow the requirements for	
students eligible for, or receiving services	
under, a 504/IEP who cannot wear a face	
covering due to the nature of the disability,	
If a student's 504/IEP plan included	
supports/goals/instruction for behavior or	
social emotional learning, the school team	
must evaluate the student's plan prior to	
providing instruction through Comprehensive	
Distance Learning.	
3. Hold a 504/IEP meeting to determine equitable access	
to educational opportunities which may include limited	
in-person instruction, on-site instruction with	
accommodations, or Comprehensive Distance	
Learning.	
☐ For students not currently served under an IEP or 504, districts must consider whether or not student inability to consistently wear a face	
covering or face shield as required is due to a disability. Ongoing	
inability to meet this requirement may be evidence of the need for an	
evaluation to determine eligibility for support under IDEA or Section	
504.	
☐ If a staff member requires an accommodation for the face covering or	
face shield requirements, districts and schools shall work to limit the	
staff member's proximity to students and staff to the extent possible	
to minimize the possibility of exposure.	
1i. ISOLATION AN	D QUARANTINE
OHA/ODE Requirements	Hybrid/Oncite Plan

OHA/ODE Requirements	Hybrid/Onsite Plan
☐ Protocols for exclusion and isolation for sick students and staff whether identified at the time of bus pick-up, arrival to school, or at any time during the school day.	
☐ Protocols for screening students, as well as exclusion and isolation protocols for sick students and staff identified at the time of arrival or during the school day. See the COVID-19 Exclusion Summary Guide.	

	•	Work with school nurses, health care providers, or other staff
		with expertise to determine necessary modifications to areas
		where staff/students will be isolated. If two students present
		COVID-19 symptoms at the same time, they must be isolated
		at once. If separate rooms are not available, ensure that six
		feet distance is maintained. Do not assume they have the
		same illness. Consider if and where students and staff will be
		isolated during learning outside. Create a comfortable outdoor
		area for isolation or follow plan for in building isolation.
	•	Consider required physical arrangements to reduce risk of
		disease transmission.
	•	Plan for the needs of generally well students who need
	•	medication or routine treatment, as well as students who may
		show signs of illness.
	_	_
	•	<u>Additional guidance</u> for nurses and health staff for providing care to students with complex needs.

		dequate space and staff supervision and symptom monitoring
	-	hool nurse, other school-based health care provider or school
		ntil they are able to go home. Anyone providing supervision
		mptom monitoring must wear appropriate face covering or
	face sh	
	•	School nurses and health staff in close contact with
		symptomatic individuals (less than 6 feet) must wear a
		medical-grade face mask. Other Personal Protective
		Equipment (PPE) may be needed depending on symptoms and
		care provided. Consult a nurse or health care professional
		regarding appropriate use of PPE. Any PPE used during care of
		a symptomatic individual must be properly removed and
		disposed of prior to exiting the care space.
	•	After removing PPE, hands shall be immediately cleaned with
		soap and water for at least 20 seconds. If soap and water are
		not available, hands can be cleaned with an alcohol-based
		hand sanitizer that contains 60-95% alcohol.
	•	If able to do so safely, a symptomatic individual shall wear a
		face covering.
	•	To reduce fear, anxiety, or shame related to isolation, provide
		a clear explanation of procedures, including use of PPE and
		handwashing.
	Establi	sh procedures for safely transporting anyone who is sick to
_		ome or to a health care facility.
П		nd students who are ill must stay home from school and must
		t home if they become ill at school, particularly if they have
		-19 symptoms. Refer to table in "Planning for COVID-19
		ios in Schools."
\Box

		d experience (Occupational or Physical Therapists) in
		pment of protocols and assessment of symptoms (where
_		g exists).
Ш		and monitor the students and staff being isolated or sent
_		for the LPHA review.
		hool must provide a remote learning option for students who
	are rec	quired to be temporarily off-site for isolation and quarantine.

2. Facilities and School Operations

Some activities and areas will have a higher risk for spread (e.g., band, choir, science labs, locker rooms). When engaging in these activities within the school setting, schools will need to consider additional physical distancing or conduct the activities outside (where feasible). Additionally, schools should consider sharing explicit risk statements for instructional and extra-curricular activities requiring additional considerations (see section 5f of the *Ready Schools, Safe Learners* guidance).

2a. ENROLLMENT

(Note: Section 2a does not apply to private schools.)

OHA/ODE Requirements	Hybrid/Onsite Plan
☐ Enroll all students (including foreign exchange students) following the	Please see Crosshill Christian's ODE Blueprint for our updated plan
ADM. If a student has stopped attending for 10 or more days, districts must continue to try to engage the student. At a minimum, districts must attempt to contact these students and their families weekly to either encourage attendance or receive confirmation that the student has transferred or has withdrawn from school. This includes students who were scheduled to start the school year, but who have not yet attended.	
□ When enrolling a student from another school, schools must request documentation from the prior school within 10 days of enrollment per OAR 581-021-0255 to make all parties aware of the transfer. Documentation obtained directly from the family does not relieve the school of this responsibility. After receiving documentation from another school that a student has enrolled, drop that student from your roll.	
Design attendance policies to account for students who do not attend in-person due to student or family health and safety concerns.	
☐ When a student has a pre-excused absence or COVID-19 absence, the school district must reach out to offer support at least weekly until the student has resumed their education.	
☐ When a student is absent beyond 10 days and meets the criteria for continued enrollment due to the temporary suspension of the 10 day drop rule, continue to count them as absent for those days and include those days in your Cumulative ADM reporting.	

2b. ATTENDANCE

(Note: Section 2b does not apply to private schools.)

OHA/ODE Requirements	Hybrid/Onsite Plan
☐ Grades K-5 (self-contained): Attendance must be taken at least once	
per day for all students enrolled in school, regardless of the	

instructional model (On-Site, Hybrid, Comprehensive Distance Learning, online schools).	
Grades 6-12 (individual subject): Attendance must be taken at least	
once for each scheduled class that day for all students enrolled in	
school, regardless of the instructional model (On-Site, Hybrid, Comprehensive Distance Learning, online schools).	
☐ Alternative Programs: Some students are reported in ADM as	
enrolled in a non-standard program (such as tutorial time), with	
hours of instruction rather than days present and days absent. Attendance must be taken at least once for each scheduled	
interaction with each student, so that local systems can track the	
student's attendance and engagement. Reported hours of instruction	
continue to be those hours in which the student was present. Online schools that previously followed a two check-in per week	
attendance process must follow the Comprehensive Distance	
Learning requirements for checking and reporting attendance.	
☐ Provide families with clear and concise descriptions of student attendance and participation expectations as well as family	
involvement expectations that take into consideration the home	
environment, caregiver's work schedule, and mental/physical health.	
2c. TECH	NOLOGY
OHA/ODE Requirements	Hybrid/Onsite Plan
☐ Update procedures for district-owned or school-owned devices to	
match cleaning requirements (see section 2d of the <i>Ready Schools,</i> Safe Learners guidance).	
☐ Procedures for return, inventory, updating, and redistributing	
district-owned devices must meet physical distancing requirements.	
☐ If providing learning outside and allowing students to engage with devices during the learning experiences, provide safe charging	
stations.	
2d. SCHOOL SPECIFIC FUNC	CTIONS/FACILITY FEATURES
OHA/ODE Requirements	Hybrid/Onsite Plan
☐ Handwashing: All people on campus shall be advised and encouraged	
to frequently wash their hands or use hand sanitizer. Equipment: Develop and use sanitizing protocols for all equipment	
used by more than one individual or purchase equipment for individual use.	
☐ Events: Cancel, modify, or postpone field trips, assemblies, athletic	
events, practices, special performances, school-wide parent meetings	
and other large gatherings to meet requirements for physical distancing.	
☐ Transitions/Hallways: Limit transitions to the extent possible. Create	
hallway procedures to promote physical distancing and minimize	
gatherings. Personal Property: Establish policies for identifying personal property	
being brought to school (e.g., refillable water bottles, school supplies,	
headphones/earbuds, cell phones, books, instruments, etc.).	
2e. ARRIVAL A	ND DISMISSAL
OHA/ODE Requirements	Hybrid/Onsite Plan
Physical distancing, stable cohorts, square footage, and cleaning	
requirements must be maintained during arrival and dismissal procedures.	
☐ Create schedule(s) and communicate staggered arrival and/or	
dismissal times.	

☐ Assign students or cohorts to an entrance; assign staff member(s) to conduct visual screenings (see section 1f of the <i>Ready Schools, Safe Learners</i> guidance).	
 □ Ensure accurate sign-in/sign-out protocols to help facilitate contact tracing by the LPHA. Sign-in procedures are not a replacement for entrance and screening requirements. Students entering school after arrival times must be screened for the primary symptoms of concern. • Eliminate shared pen and paper sign-in/sign-out sheets. • Ensure hand sanitizer is available if signing children in or out on an electronic device. 	
☐ Ensure alcohol-based hand sanitizer (with 60-95% alcohol) dispensers are easily accessible near all entry doors and other high-traffic areas. Establish and clearly communicate procedures for keeping caregiver drop-off/pick-up as brief as possible.	
2f. CLASSROOMS/REPUR	
OHA/ODE Requirements	Hybrid/Onsite Plan
☐ Seating: Rearrange student desks and other seat spaces so that staff and students' physical bodies are six feet apart to the maximum extent possible while also maintaining 35 square feet per person; assign seating so students are in the same seat at all times.	
☐ Materials: Avoid sharing of community supplies when possible (e.g., scissors, pencils, etc.). Clean these items frequently. Provide hand sanitizer and tissues for use by students and staff.	
 ☐ Handwashing: Remind students (with signage and regular verbal reminders from staff) of the utmost importance of hand hygiene and respiratory etiquette. Respiratory etiquette means covering coughs and sneezes with an elbow or a tissue. Tissues shall be disposed of in a garbage can, then hands washed or sanitized immediately. ◆ Wash hands with soap and water for 20 seconds or use an 	
alcohol-based hand sanitizer with 60-95% alcohol.	
	ESS. BREAKS. AND RESTROOMS
alcohol-based hand sanitizer with 60-95% alcohol. 2g. PLAYGROUNDS, FIELDS, RECOMA/ODE Requirements	ESS, BREAKS, AND RESTROOMS Hybrid/Onsite Plan
2g. PLAYGROUNDS, FIELDS, RECONHA/ODE Requirements ☐ Keep school playgrounds closed to the general public until park playground equipment and benches reopen in the community (see Oregon Health Authority's Specific Guidance for Outdoor Recreation

Outdoor playground structures require normal routine cleaning and do not require disinfection. Shared equipment (balls, jump ropes, etc.) should be cleaned and disinfected at least daily in accordance with CDC guidance. ☐ Cleaning requirements must be maintained (see section 2j of the Ready Schools, Safe Learners guidance). ☐ Maintain physical distancing requirements, stable cohorts, and square	

☐ Clean all outdoor equipment at least daily or between use as much as	
possible in accordance with <u>CDC guidance</u> .	
☐ Limit the number of employees gathering in shared spaces. Restrict	
use of shared spaces such as conference rooms, break rooms, and	
elevators by limiting occupancy or staggering use, maintaining six feet	
of distance between adults. Establish a minimum of 35 square feet per person when determining room capacity. Calculate only with	
usable space, understanding that tables and room set-up will require	
use of all space in the calculation. Note: The largest area of risk is	
adults eating together in break rooms without face coverings.	
5 5	
2h. MEAL SERVI	CE/NUTRITION
OHA/ODE Requirements	Hybrid/Onsite Plan
☐ Include meal services/nutrition staff in planning for school reentry.	
☐ Prohibit self-service buffet-style meals.	
☐ Prohibit sharing of food and drinks among students and/or staff.	
☐ At designated meal or snack times, students may remove their face	
coverings to eat or drink but must maintain six feet of physical	
distance from others, and must put face coverings back on after	
finishing the meal or snack.	
☐ Staff serving meals and students interacting with staff at mealtimes	
must wear face coverings (see section 1h of the <i>Ready Schools, Safe</i>	
Learners guidance). Staff must maintain 6 feet of physical distance to	
the greatest extent possible. If students are eating in a classroom,	
staff may supervise from the doorway of the classroom if feasible.	
Students and staff must wash hands with soap and water for 20	
seconds <u>or</u> use an alcohol-based hand sanitizer with 60-95% alcohol before meals and shall be encouraged to do so after.	
Appropriate daily cleaning of meal items (e.g., plates, utensils,	
transport items).	
☐ Cleaning and sanitizing of meal touch-points and meal counting	
system between stable cohorts.	
Adequate cleaning and disinfection of tables between meal periods.	
☐ Since staff must remove their face coverings during eating and	
drinking, limit the number of employees gathering in shared spaces.	
Restrict use of shared spaces such as conference rooms and break	
rooms by limiting occupancy or staggering use. Consider staggering	
times for staff breaks, to prevent congregation in shared spaces.	
Always maintain at least six feet of physical distancing and establish a	
minimum of 35 square feet per person when determining room	
capacity. Calculate only with usable classroom space, understanding that desks and room set-up will require use of all space in the	
calculation. Wear face coverings except when eating or drinking and	
minimize time in spaces where face coverings are not consistently	
worn.	
2i. TRANSP	
OHA/ODE Requirements	Hybrid/Onsite Plan
☐ Include transportation departments (and associated contracted	
providers, if used) in planning for return to service.	
Buses are cleaned frequently. Conduct targeted cleanings between	
routes, with a focus on disinfecting frequently touched surfaces of	
the bus (see section 2j of the <i>Ready Schools, Safe Learners</i> guidance).	
☐ Staff must use hand sanitizer (containing between 60-95% alcohol) in	
between helping each child and when getting on and off the vehicle.	
Gloves are not recommended; hand sanitizer is strongly preferred. If	
hand sanitizer is not available, disposable gloves can be used and	
must be changed to a new pair before beloing each child	

☐ Develop protocol for loading/unloading that includes visual screening for students exhibiting symptoms and logs for contact-tracing. This	
must be done at the time of arrival and departure.	
 If a student displays COVID-19 symptoms, provide a face 	
covering (unless they are already wearing one) and keep six	
feet away from others. Continue transporting the student.	
 The symptomatic student shall be seated in the first 	
row of the bus during transportation, and multiple	
windows must be opened to allow for fresh air	
circulation, if feasible.	
 The symptomatic student shall leave the bus first. After all students exit the bus, the seat and 	
surrounding surfaces must be cleaned and disinfected.	
 If arriving at school, notify staff to begin isolation measures. 	
 If transporting for dismissal and the student displays 	
an onset of symptoms, notify the school.	
☐ Consult with parents/guardians of students who may require	
additional support (e.g., students who experience a disability and	
require specialized transportation as a related service) to	
appropriately provide service.	
☐ Drivers must wear masks or face coverings while driving, unless the	
mask or face covering interferes with the driver's vision (e.g., fogging	
of eyeglasses). Drivers must wear face coverings when not actively driving and operating the bus, including while students are entering	
or exiting the vehicle. A face shield may be an acceptable alternative,	
only as stated in Section 1h of the Ready Schools, Safe Learners	
guidance.	
☐ Inform parents/guardians of practical changes to transportation	
service (i.e., physical distancing at bus stops and while	
loading/unloading, potential for increased route time due to	
additional precautions, sanitizing practices, and face coverings).	
Face coverings for all students, applying the guidance in section 1h of	
the <i>Ready Schools, Safe Learners</i> guidance to transportation settings. This prevents eating while on the bus.	
☐ Take all possible actions to maximize ventilation: Dress warmly, keep	
vents and windows open to the greatest extent possible.	
2j. CLEANING, DISINFECT OHA/ODE Requirements	TION, AND VENTILATION Hybrid/Onsite Plan
☐ Clean, sanitize, and disinfect frequently touched surfaces (e.g. door	
handles, sink handles, drinking fountains, transport vehicles) and	
shared objects (e.g., toys, games, art supplies) between uses multiple	
times per day. Maintain clean and disinfected (CDC guidance)	
environments, including classrooms, cafeteria settings and restrooms.	
Provide time and supplies for the cleaning and disinfecting of	
high-touch surfaces between multiple student uses, even in the same cohort.	
 Outdoor learning spaces must have at least 75% of the square footage of its sides open for airflow. 	
Utdoor playground structures require normal routine cleaning and	
do not require disinfection. Shared equipment should be cleaned and	
disinfected at least daily in accordance with CDC guidance.	
$\hfill \square$ Apply disinfectants safely and correctly following labeling direction as	
specified by the manufacturer. Keep these products away from	
students.	
☐ To reduce the risk of asthma, choose disinfectant products on the EPA	
List N with asthma-safer ingredients (e.g. hydrogen peroxide, citric	
acid, or lactic acid) and avoid products that mix these with asthma-causing ingredients like peroxyacetic acid, sodium	

hypochlorite (bleach), or quaternary ammonium compounds.

indoor air recirculation (thus maximizing fresh outdoor air) to the	
extent possible. Schools that do not have mechanical ventilation	
systems shall, to the extent possible, increase natural ventilation by opening windows and interior doors before students arrive and after	
students leave, and while students are present. Do not prop open	
doors that can pose a safety or security risk to students and staff	
(e.g., exterior doors and fire doors that must remain closed.)	
Schools with HVAC systems should ensure all filters are maintained	
and replaced as necessary to ensure proper functioning of the	
system.	
☐ All intake ports that provide outside air to the HVAC system should be cleaned, maintained, and cleared of any debris that may affect the function and performance of the ventilation system.	
☐ Consider running ventilation systems continuously and changing the	
filters more frequently. Do <u>not</u> use fans if they pose a safety or health	
risk, such as increasing exposure to pollen/allergies or exacerbating	
asthma symptoms. Consider using window fans or box fans positioned in open windows to blow fresh outdoor air into the	
classroom via one window, and indoor air out of the classroom via	
another window. Fans must not be used in rooms with closed	
windows and doors, as this does not allow for fresh air to circulate.	
☐ Consider the need for increased ventilation in areas where students	
with special health care needs receive medication or treatments.	
☐ Facilities must be cleaned and disinfected at least daily to prevent	
transmission of the virus from surfaces (see CDC's guidance on	
disinfecting public spaces).	
Consider modification or enhancement of building ventilation where feasible (see CDC's guidance on ventilation and filtration and	
American Society of Heating, Refrigerating, and Air-Conditioning

 $\ \ \square$ Schools with HVAC systems must evaluate the system to minimize

 Communication and designation of where the "household" or "family unit" applies to your residents and staff 	
Review and take into consideration CDC guidance for shared or	
congregate housing:	
Not allow more than two students to share a residential dorm	
room unless alternative housing arrangements are impossible	
Ensure at least 64 square feet of room space per resident	
Reduce overall residential density to ensure sufficient space	
for the isolation of sick or potentially infected individuals, as	
necessary;	
Configure common spaces to maximize physical distancing; Provide enhanced cleaning:	
 Provide enhanced cleaning; Establish plans for the containment and isolation of 	
on-campus cases, including consideration of PPE, food	
delivery, and bathroom needs.	
Exception	
K-12 boarding schools that do not meet the Advisory Metrics (Section 0	
of the <i>Ready Schools, Safe Learners</i> guidance) may operate, in	
consultation with their Local Public Health Authority, provided that:	
☐ They have a current and complete RSSL Blueprint and are complying	
with Sections 1-3 of the <i>Ready Schools, Safe Learners</i> guidance and	
any other applicable sections, including Section 2L of the <i>Ready</i>	
Schools, Safe Learners guidance.	
☐ The school maintains a fully-closed residential campus (no non-essential visitors allowed), and normal day school operations are	
only offered remotely through distance learning.	
☐ There have been no confirmed cases of COVID-19 among school staff	
or students in the past 14 days.	
Less than 10% of staff, employees, or contracts (in total) are traveling	
to or from campus. Staff in this designation will:	
 Limit travel to essential functions. 	
Carefully monitor their own health daily and avoid coming to	
campus at any potential symptom of COVID-19.	
Any boarding students newly arriving to campus will either:	
 Complete a quarantine at home for 14 days* prior to traveling to the school, OR 	
 Quarantine on campus for 14 days.* 	
Qualitation of campus for 11 days.	
* A 14-day quarantine is the safest option to prevent the spread of	
COVID-19 to others. However, in either option above, for boarding	
students who have not developed any symptoms, schools may	
consider ending quarantine after 10 days without any testing, or after	
7 days with a negative result on a COVID-19 viral test collected within 48 hours before ending quarantine, unless otherwise directed by the	
local public health authority (LPHA).	
Student transportation off-campus is limited to medical care.	
2m. SCHOOL EMERGENCY	PROCEDURES AND DRILLS
OHA/ODE Requirements	Hybrid/Onsite Plan
☐ In accordance with <u>ORS 336.071</u> and <u>OAR 581-022-2225</u> all schools	
(including those operating a Comprehensive Distance Learning	
model) are required to instruct students on emergency procedures.	
Schools that operate an On-Site or Hybrid model need to instruct and practice drills on emergency procedures so that students and staff	
can respond to emergencies.	
At least 30 minutes in each school month must be used to	
instruct students on the emergency procedures for fires,	
earthquakes (including tsunami drills in appropriate zones),	

and safety threats.

Fire drills must be conducted monthly.

Earthquake drills (including tsunami drills and instruction for	
schools in a tsunami hazard zone) must be conducted two	
times a year.	
Safety threats including procedures related to lockdown,	
lockout, shelter in place and evacuation and other appropriate	
actions to take when there is a threat to safety must be	
conducted two times a year.	
☐ Drills can and should be carried out <u>as close as possible</u> to the procedures that would be used in an actual emergency. For example,	
a fire drill must be carried out with the same alerts and same routes	
as normal. If appropriate and practicable, COVID-19 physical	
distancing measures can be implemented, but only if they do not	
compromise the drill.	
\square When or if physical distancing must be compromised, drills must be	
completed in less than 15 minutes.	
☐ Drills shall not be practiced unless they can be practiced correctly.	
☐ Train staff on safety drills prior to students arriving on the first day on campus in hybrid or face-to-face engagement.	
☐ If on a hybrid schedule, conduct multiple drills each month to ensure	
that all cohorts of students have opportunities to participate in drills	
(i.e., schedule on different cohort days throughout the year).	
☐ Students must wash hands with soap and water for 20 seconds or use	
an alcohol-based hand sanitizer with 60-95% alcohol after a drill is complete.	
complete.	
2n. SUPPORTING STUDENTS WHO ARE DYSREGULATED, ESCA	LATED, AND/OR EXHIBITING SELF-REGULATORY CHALLENGES
OHA/ODE Requirements	Hybrid/Onsite Plan
☐ Utilize the components of Collaborative Problem Solving or a similar

Ensure that staff are trained in effective, evidence-based methods for developing and maintaining their own level of self-regulation and resilience to enable them to remain calm and able to support struggling students as well as colleagues. Plan for the impact of behavior mitigation strategies on public health and safety requirements: Student elopes from area If staff need to intervene for student safety, staff should:	

student without physical intervention.

Use the least restrictive interventions possible to maintain physical safety for the student and staff. Wash hands after a close interaction. Note the interaction on the appropriate contact log. *If unexpected interaction with other stable cohorts occurs, those contacts must be noted in the appropriate contact Student engages in behavior that requires them to be isolated from peers and results in a room clear. If students leave the classroom: Preplan for a clean and safe alternative space that maintains physical safety for the student and staff Ensure physical distancing and separation occur, to the maximum extent possible. Use the least restrictive interventions possible to maintain physical safety for the student and staff. Wash hands after a close interaction. Note the interaction on the appropriate contact log. *If unexpected interaction with other stable cohorts occurs, those contacts must be noted in the appropriate contact logs. Student engages in physically aggressive behaviors that preclude the possibility of maintaining physical distance and/or require physical de-escalation or intervention techniques other than restraint or seclusion (e.g., hitting, biting, spitting, kicking, self-injurious behavior). If staff need to intervene for student safety, staff should: Maintain student dignity throughout and following the incident. Use empathetic and calming verbal interactions (i.e. "This seems hard right now. Help me understand... How can I help?") to attempt to re-regulate the student without physical intervention. Use the least restrictive interventions possible to maintain physical safety for the student and staff Wash hands after a close interaction. Note the interaction on the appropriate contact log. *If unexpected interaction with other stable cohorts occurs, those contacts must be noted in the appropriate contact logs. ☐ Ensure that spaces that are unexpectedly used to deescalate behaviors are appropriately cleaned and sanitized after use before the introduction of other stable cohorts to that space. **20. PROTECTIVE PHYSICAL INTERVENTION**

OHA/ODE Requirements	Hybrid/Onsite Plan
☐ Reusable Personal Protective Equipment (PPE) must be cleaned and disinfected following the manufacturer's recommendation, after every episode of physical intervention (see section 2j. Cleaning, Disinfection, and Ventilation in the <i>Ready Schools, Safe Learners</i>	
guidance). Single-use disposable PPE must not be re-used.	

a safe return to schools.

3. Response to Outbreak

3a. PREVENTION AND PLANNING

OHA/ODE Requirements	Hybrid/Onsite Plan
 □ Review the "Planning for COVID-19 Scenarios in Schools" toolkit. □ Coordinate with Local Public Health Authority (LPHA) to establish 	Please see Crosshill Christian's <u>ODE Blueprint</u> for our updated plan
communication channels related to current transmission level.	
3b. RES	PONSE
OHA/ODE Requirements	Hybrid/Onsite Plan
☐ Review and utilize the "Planning for COVID-19 Scenarios in Schools" toolkit.	
☐ Ensure continuous services and implement Comprehensive Distance Learning.	
\square Continue to provide meals for students.	
2. PECOVERY	AND DEFAUTOV
3c. RECOVERY	
OHA/ODE Requirements	Hybrid/Onsite Plan
☐ Review and utilize the <u>"Planning for COVID-19 Scenarios in Schools"</u> toolkit.	
☐ Clean, sanitize, and disinfect surfaces (e.g. door handles, sink handles, drinking fountains, transport vehicles) and follow CDC guidance for classrooms, cafeteria settings, restrooms, and playgrounds.	
☐ When bringing students back into On-Site or Hybrid instruction, consider smaller groups, cohorts, and rotating schedules to allow for	

ASSURANCES

This section must be completed by any public school that is providing instruction through On-Site or Hybrid Instructional Models.

Schools providing Comprehensive Distance Learning Instructional Models do not need to complete this section unless the school is implementing the Limited In-Person Instruction provision under the Comprehensive Distance Learning guidance.

This section does not apply to private schools.

- ☐ We affirm that, in addition to meeting the requirements as outlined above, our school plan has met the collective requirements from ODE/OHA guidance related to the 2020-21 school year, including but not limited to requirements from:
 - Sections 4, 5, 6, 7, and 8 of the <u>Ready Schools, Safe Learners</u> guidance,
 - The <u>Comprehensive Distance Learning</u> guidance,
 - The Ensuring Equity and Access: Aligning Federal and State Requirements guidance, and
 - Planning for COVID-19 Scenarios in Schools
- ☐ We affirm that we cannot meet all of the collective requirements from ODE/OHA guidance related to the 2020-21 school year from:
 - Sections 4, 5, 6, 7, and 8 of the <u>Ready Schools, Safe Learners</u> guidance,
 - The Comprehensive Distance Learning guidance,

- The Ensuring Equity and Access: Aligning Federal and State Requirements guidance, and
- Planning for COVID-19 Scenarios in Schools

We will continue to work towards meeting them and have noted and addressed which requirement(s) we are unable to meet in the table titled "Assurance Compliance and Timeline" below.

4. Equity

5. Instruction

6. Family, Community, Engagement

7. Mental, Social, and Emotional Health

8. Staffing and Personnel

Assurance Compliance and Timeline

If a district/school cannot meet the requirements from the sections above, provide a plan and timeline to meet the requirement.

List Requirement(s) Not Met	Provide a Plan and Timeline to Meet Requirements Include how/why the school is currently unable to meet them
